Award Categories

The examination is marked out of 100 with a pass mark of 60.
Award categories are as follows:

80-100	Distinction
60-79	Pass
40-59	Below Pass
0-39	Unclassified

Important notes about these guidelines

1. The guidelines below are structured and colour co-ordinated by our award categories. These give an indication within each section of the exam of the trajectory towards your final result.
2. Terms in the tables should be interpreted appropriately for the level of the examination. Terminology used in the assessment categories and marking tables has a different level of expectation at each diploma level.
3. A mark of 0 is only awarded if the section is not performed at all.
4. Each category is likely to have several/many constituent elements which are being assessed and examiners establish a mark resulting from the balance of all these elements as well as any others which arise from time to time. The marking outcome is drawn from all relevant elements in a particular examination.
5. Target Durations are a flexible guide to help create a programme of appropriate length, substance and content for each diploma.

At diploma level, MTB realistically expects the candidate to be responsible for the Target Duration of their programme. It should be a skill which they have acquired over time and now have the confidence to use to benefit their planning. For this reason we provide a minimum and maximum time for their recital as well as a target duration. Performances with a duration outside of these parameters will be penalised.

Duration starts when the recording begins and finishes when it ends, care should be taken to avoid unnecessary lengthy pauses either at the start, end or during the performance. If this occurs it may be factored into the assessment of Duration and may be reflected in the marking.

Target Durations - AMTB & LMTB
AMTB - Target Duration: 35 minutes (minimum: 32 minutes / maximum: 38 minutes)
LMTB - Target Duration: 45 minutes (minimum: 42 minutes / maximum: 48 minutes)
